Service Agreement for Your Water Line Protection Plan (“Plan”) Coverage

What is covered under the Plan

The Plan covers all parts, material, and labor required to repair or replace your leaking external service line, not including the curb box, up to the Plan coverage limit. The determination of whether and with what to repair or replace your leaking service line is at the discretion of Homeowner Safety Valve Company (the “Company”) or its agent. Plan coverage also includes excavation, paving, loaming, and seeding of the lawn as required in the area of the repair or replacement. Plan coverage does not include removal of trees. Restoration to any area disturbed by the repair that is on Your Property and outside Your Residence is limited to: filling, raking and reseeding of grass, reinstallation of existing soft landscaping and shrubbery and patching of paved surfaces.
